

**Lecturer/Senior Lecturer
School Of Architecture and Planning
Wits University,
Johannesburg, South Africa**

The School of Architecture and Planning is an exciting and creative environment with over 500 students and approximately continuing 30 academic staff. Its core activity is delivery of degrees in architecture and urban and regional planning and related fields of housing and urban design. Additional fields in sustainable building and urban development are under development. It offers excellent opportunities for interactive teaching, challenging research, career development, insertion into the professions of architecture and planning and links to a wide range of other institutions locally and internationally. Its professional degrees are variously accredited by South African and international bodies.

The Faculty of Engineering and the Built Environment invites applications for several Senior Lectureships or Lectureships in the School of Architecture and Planning from 1 January 2009 or as soon as possible thereafter.

Successful candidates will be able to contribute to the teaching programs of the School in one or more of the following areas:

- architectural theory and design
- architectural technology and construction
- city planning and urban design
- planning theory
- professional practice and management in architecture
- **housing** and urbanism
- urban transportation, GIS and CAD in combination with other aspects of planning

Qualifications: Appointments will preferably be made on a full time basis, although appointments at lesser percentages of time will also be considered should successful candidates prefer such arrangements. Candidates should be qualified architects and/or planners, as appropriate to particular areas of teaching, should preferably hold higher degrees, and for senior lectureships a PhD is an advantage. Relevant teaching experience is a strong recommendation.

Duties: The successful applicants will teach a normal number of hours in the School (depending on the percentage at which they are appointed). They will be active in research, writing, publishing and/or creative work, and will be expected to undertake a share of administrative duties. Opportunities exist for externally funded work subject to the University's policy and the approval of relevant authorities.

Further information: Prof. Alan Mabin, Alan.Mabin@wits.ac.za, Tel: +27 11 717 7726/8/7

To apply: submit a covering letter and a detailed CV with the names, e-mail addresses and contact details of 3 referees and certified copies of degrees/diplomas and ID to: Ms

Anisha Sivnannan, Human Resources Officer, Faculty of Engineering & the Built Environment, University of the Witwatersrand, Johannesburg, Private Bag 3, Wits, 2050.
● Email: anisha.sivnannan@wits.ac.za ● Fax: +27 11 717 7039 ● Tel: +27 11 717 7019 ●
Closing date: 15 October 2008
